

FLO ReShare Kickoff

May 29, 2024

Agenda

- Introductions
- What is ReShare?
- Review the onboarding process
- Review the timeline
- Review the implementation template
- Questions

Introductions

Libraries!

Welcome to:

- Simmons
- NECO
- Wentworth
- Emerson
- Emmanuel
- MCPHS

FLO Folks!

- Joe
- Jenn

What is ReShare

ReShare is a REsource SHARE-ing system

For FLO, ReShare will allow libraries to lend books to one another since you no longer share an ILS.

The Onboarding Process

what's going to happen?

Here's What's Going To Happen

- First, we're going to set up your ReShare system!
 - We've got everything we need to do this—nothing for you to worry about!
- Next, we're going to bring each individual institution on board.
 - We'll need some information to help us get set up
 - We'll do some testing to make sure everything is working.
- We'll set up VuFind so patrons will be able to make requests
- We'll set up Metadb for reporting
- We'll do training so everyone knows how to use the system
- We'll flip the switch and go live on August 5th, 2024

The Timeline

when is it going to happen?

Month-by-Month

- May
 - ReShare system set up
- June
 - Implementation sheets filled out
 - Individual libraries brought online
 - VuFind Intake
- July
 - VuFind customizations and final set up
 - Testing and training
- August
 - Launch!

The Implementation Templates

what do we need to do?

What Information Do We Need?

FLO Libraries are at an incredible advantage: because FLO manages your integrations and Index Data hosts them, we already have much of the information we need and can make configurations easily.

Some Terminology

- NCIP
- Z39.50
- OAI-PMH
- SSO

Other Information

We will also be using some information about your locations, patrons, and items. We will also need to do some set up to get things to circulate correctly.

Questions?

Thank you!
